

MEATLINE 07

METAL DETECTOR FOR CONNECTION TO A VACUUM FILLER IN SAUSAGE PRODUCTION

Reliable - In Process and Detection

Durable - In Technology and Performance

Conforming - In Design and Data management

PEGASUS
INDUSTRONICS

Features

- ✓ Digital signal processing for best detection
- ✓ Reliable and safe metal detection technology
- ✓ Process- and condition monitoring
- ✓ Indestructible and maintenance-free construction
- ✓ Resistant against external influences
- ✓ Highest precision in long-term operation
- ✓ Network connectivity and data management
- ✓ Password protected user management
- ✓ Hygienic Design
