

METRON 07 PowerLine

METAL DETECTOR FOR INSTALLATION IN PIPE SYSTEMS

Reliable - In Process and Detection

Durable - In Technology and Performance

Conforming - In Design and Data management

Features

- ✓ PowerLine concept for absolute noise immunity
- ✓ Totally shielded against external noise
- ✓ Process- and condition monitoring
- ✓ No sensing tube, no static discharges
- ✓ Failsafe storage of all system parameters
- ✓ Sensor head fully sealed
- ✓ Network connectivity and data management
- ✓ Password protected user management
- ✓ Hygienic Design without dead spots
